THAULERS[®]

Company Overview

A practical China sourcing partner built for retail buyers, distributors and project owners.

TOUGH HAULERS TRADE LIMITED

We support clients from product research and supplier selection through sampling, factory qualification, quality control, export coordination and private label packaging.

China

Sourcing base in Yiwu & Shenzhen

3

Main client regions: Europe, Middle East, Africa

A-Z

Inquiry to shipment coordination

Positioning

Not only a trading company - a buyer-side sourcing and execution office inside China.

THAULERS[®]

Core Capabilities

A complete operating system for turning buyer requirements into export-ready goods.

1

Product Sourcing

Market search, supplier shortlisting and offer comparison.

2

Factory Qualification

License checks, production capability review and sample validation.

3

OEM / ODM Development

Customization, packaging, private label and product improvement.

4

Quality Control

Sample checks, pre-production checks, during-production and final inspections.

5

Logistics Coordination

Carton data, loading plans, export documents and shipment follow-up.

6

Market & Project Intelligence

Category analysis for retail goods, technical products and project procurement.

THAULERS[®]

Product Categories

Flexible sourcing coverage across fast-moving retail goods and selected industrial products.

Solar Energy

Solar power, batteries and energy storage project support.

Complete Industrial Production Lines

Factory production lines, equipment packages and technical quotations.

Electric Scooters

Models, batteries, motors, accessories, OEM and CKD/CBU sourcing.

Kitchenware

Kitchen, home, retail goods, packaging and private label programs.

Hotel Supplies

Hotel room supplies, amenities, catering and operational products.

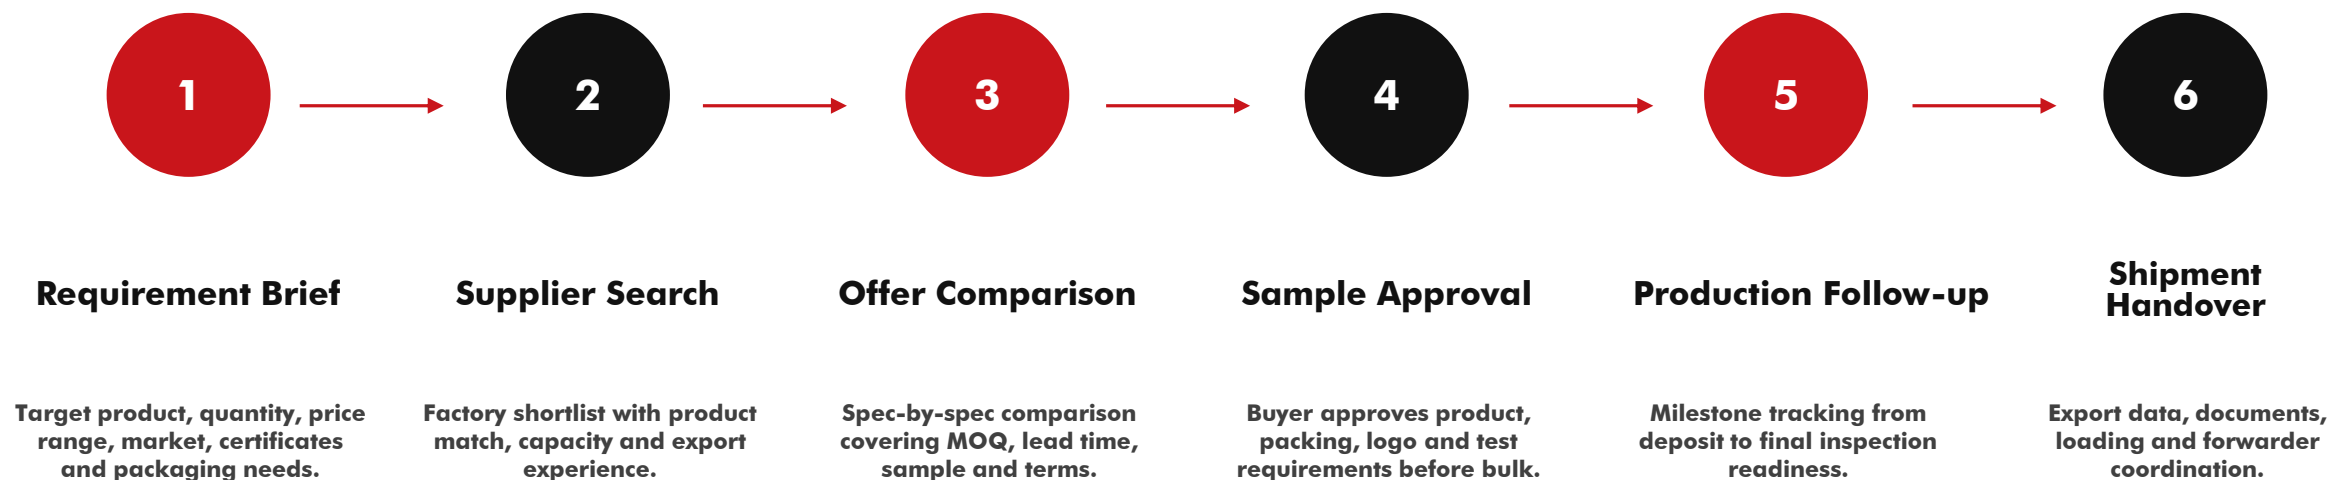

Tools & Hardware

Hand tools, power tools, automotive accessories and workshop products.

THAULERS[®]

Sourcing Process

A clear workflow designed to reduce supplier risk and keep buyers in control.

Every step is documented so the client can compare options, approve decisions and avoid hidden specification changes.

THAULERS[®]

Factory Qualification Process

Before price negotiation, we confirm whether the supplier can truly execute the order.

1

Business Legitimacy

Company registration, export experience and real operating address.

2

Production Capability

Machines, lines, daily capacity, tooling and technical team.

3

Product Match

Current models, material grade, certificate availability and sample consistency.

4

Commercial Fit

MOQ, payment terms, lead time, warranty and after-sales support.

5

Risk Control

Backup suppliers and escalation plan when quality or delivery changes.

THAULERS[®]

Quality Control Process

QC is planned from the sample stage - not only at the end of production.

Sample Check

Confirm appearance, material, function, packing and key dimensions.

Pre-Production

Lock BOM, approved sample, carton design and technical requirements.

During Production

Follow-up on timeline, quantity, defects, color and packaging consistency.

Final Inspection

Visual, function, quantity, packing, carton marks and loading readiness.

Typical QC Output

Inspection photos, defect summary, quantity confirmation, packing review and shipment recommendation.

Compliance & Certifications

We request the right compliance evidence based on product category and destination market.

- **CE / EMC / LVD** where applicable
- **RoHS / REACH** for relevant materials
- **LFGB / FDA** for food-contact kitchenware
- **EN / ANSI** standards for safety items
- **Test reports and certificate validity checks**

Compliance File Check

- 01** Certificate name matches supplier / product family
- 02** Test standard and report date reviewed
- 03** Model number and technical specs are consistent
- 04** Buyer confirms final market requirements before order

Note: final compliance requirements are confirmed by the buyer according to the target market and product use.

THAULERS[®]

Logistics & Export

From factory carton data to shipment handover, we help keep export execution visible and organized.

Carton Data

CBM, gross weight, packing list details.

Loading Plan

Container loading quantity and route coordination.

Documents

Commercial invoice, packing list and certificate files.

Forwarder Link

Factory, warehouse and client forwarder alignment.

THAULERS[®]

Private Label Solutions

We help transform standard factory products into retail-ready private label lines.

1

Logo & Brand Application

Product marking, packaging logo, neutral export packaging or full private label.

2

Packaging Development

Color box, gift box, carton marks, barcode and retail shelf presentation.

3

Artwork Coordination

Dieline request, print requirements, supplier proof and buyer approval.

4

Product Customization

Color, plug, material, function, accessories and instruction manuals.

Selected Product Portfolio

Representative product groups we can source, customize and prepare for export.

Solar Energy

PV panels, inverters, batteries, hybrid systems and project support.

Production Lines

Sorting, recycling, packaging, processing and special industrial lines.

Electric Scooters

Scooter models, batteries, motors, accessories, CKD/SKD and OEM branding.

Kitchenware

Cookware, utensils, drinkware, storage, cleaning and private-label sets.

Hotel Supplies

Guest room, housekeeping, amenities, catering and operational supplies.

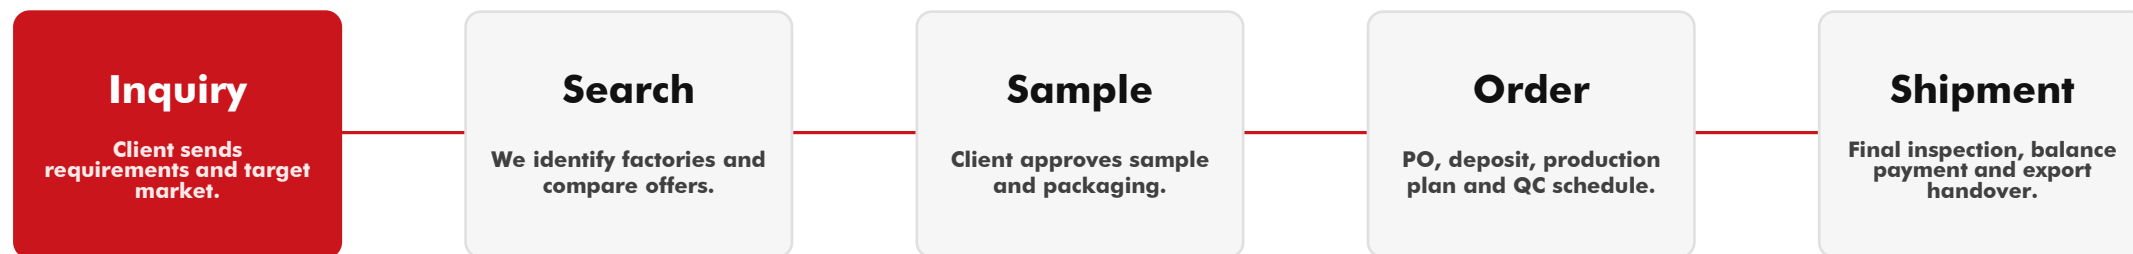

Tools & Hardware

Hand tools, power tools, hardware, safety items and automotive accessories.

Client Cooperation Model

Simple, transparent and suitable for both one-off sourcing and long-term buying programs.

Standard Business Terms Final pricing, MOQ, lead time, samples, certificates, warranty and payment terms are confirmed per product and factory quotation.

'THAULERS[®]

Why Tough Haulers?

A buyer-side partner focused on practical execution, transparent supplier selection and retail-ready results.

Inside China

Direct factory communication and fast follow-up.

Project & Market Fit

Product and project selection aligned with target market needs.

Process Control

From sample to shipment, every step is tracked.

Private Label Ready

Packaging, artwork and customization support.

THAULERS[®]

Operating Principles

The way we work with clients and factories.

01 Clear Requirements

No order starts without confirmed specs, target quantity and destination needs.

03 No Hidden Changes

Approved samples and packaging are used as the control reference.

05 Export Readiness

Product data and logistics information are prepared before shipment deadlines.

02 Factory Transparency

We separate manufacturer data, trading offers and open questions.

04 Decision Records

Client approvals are kept for model, color, material, carton and certificates.

06 Long-Term Fit

We build supplier pools that can support repeated buying programs.

The background of the entire image is a photograph of a shipping yard at sunset. In the foreground, two hands are shaking, symbolizing a partnership. One hand is in a dark suit sleeve, and the other is in a blue work shirt sleeve with a yellow safety vest visible. The background shows stacks of colorful shipping containers (red, blue, yellow) and several semi-trucks parked in the yard. The sun is low on the horizon, creating a warm, golden glow that reflects on the wet pavement. A faint world map with glowing connection lines is overlaid on the upper half of the image.
